iClearer

Which logo to use

The primary logo: glass icon + wordmark, light version.

File: iclearer-lockup-glass-light.svg Icon only: iclearer-icon-glass-light.svg

Situation	Use	File
Large, on a screen (48 px and up)	**Glass icon**	iclearer-icon-glass-light.svg
Website header, presentations, press	**Glass icon + wordmark**	iclearer-lockup-glass-light.svg
Dark backgrounds	**Dark glass version**	iclearer-icon-glass-dark.svg / lockup-glass-dark
Dock icon, Add to Home Screen	**Glass icon**	apple-touch-icon / icon-512 PNG
Browser tab, anything under 48 px	**Flat icon**	favicon.svg / iclearer-icon-flat-light.svg
Print, stamps, one-color uses	**Flat icon or mark only**	iclearer-mark-only-black / white.svg

One rule: glass when it is big and on a screen, flat when it is small or printed.

The flat mark is the master. The glass version is the same mark with a finish on top.
Lens, Sweep and Spark were early explorations. They are retired and not used anywhere.
